

## Case Study Skandinaviska Enskilda Banken (SEB)

**SEB** is the leading corporate and investment bank in the Nordic countries, serving large corporations, financial institutions, banks and commercial real estate clients. They specialise in corporate banking, trading and capital markets, global transaction services, comprehensive pension and asset management solutions.

Their London office serves as the main office for SEB's international merchant banking services, focusing in particular on the needs of the bank's clients in the Nordic countries and Germany.

They provide their corporate banking and financial institution clients with a wide range of services and act as an intermediary in the primary and secondary capital markets for both debt and equity products.

London is also home to SEB Futures, through which SEB is the only Nordic bank to offer a comprehensive brokerage and clearing service for exchange traded futures and options.

This multi tenanted building is located in Cannon Street and consists of seven floors plus basement and roof. Level 5 is used exclusively for executive meeting rooms, plus the building offers full catering and conference facilities for all staff.

**Platinum Facilities** have retained this contract since 2007 and provide full Mechanical and Electrical services. Our fully qualified engineer is based directly on site and has support from our 'Central Support Team' HR, Technical, SHEQ, IT etc..
