Health and Safety Policy Manual

Platinum Facilities & Maintenance Services Ltd (Platinum Facilities)

HEALTH AND SAFETY POLICY

Platinum Facilities is committed to continuous improvement in Health and Safety standards setting clear objectives with effective and regular review of performance. The Platinum Facilities management system provides a framework for establishing and reviewing objectives and is communicated and understood throughout the organization and the supply chain where necessary.

It is the policy of Platinum Facilities to:-

- Conduct its activities in such a way as to prevent injury and ill health and to take foremost account of the Health and Safety of their employees and others who may be affected by its activities
- Comply with all relevant Regulatory and Legislative requirements and Codes of Practice
- Operate a Health and Safety management system, the implementation of which is a management responsibility with the active leadership of Managers and participation of all staff encouraged
- Ensure that our staff have a good understanding of the Health and Safety impacts of our business and what they are expected to do to manage these impacts
- Provide the training to enable our employees to carry out their Health and Safety responsibilities
- Strive for continual improvement in Health and Safety and, where relevant, to set annual targets for improvement.

Platinum Facilities Board of Directors has overall responsibility for the policy. Details of individual levels of responsibility are published in the Safety, Health and Environmental Management Manual and the Staff Handbook which, together with this policy, will be updated and reviewed on a regular basis. The procedures may be inspected at our office.

Employees are aware that their responsibilities for Health and Safety are no less than for any other of their functions.

This policy statement will be prominently displayed at all sites and work places.

Employees can obtain further information about Health and Safety from their Managers and/or the Safety, Health & Environmental Department.

There is a commitment to continually improve the effectiveness of the business and the management system; as such there is an ongoing review process to ensure its continued suitability.
