

Energy Services

Our energy experts help businesses reduce their energy consumption, save money and reduce their carbon footprint.

Energy Surveys & Audits

- > ESOS surveys
- > TM44 & TM22 surveys
- > Walk around energy surveys
- > Low carbon surveys
- > EPC rating surveys

Energy Bureau Services

- > Data analytics
- > Streamlined Energy and Carbon Reporting (SECR)
- > Procurement – green electricity & biogas
- > M&T
- > Bill validation
- > Benchmarking

Energy Efficient Maintenance

- > Reduce operating costs and carbon emissions
- > Prolong asset life
- > Reduce equipment failure risk and unscheduled down time
- > Increase a facility's Net Operating Income (NOI)
- > Maintain comfort, increasing wellbeing

Net Zero Strategy & Implementation

- > Net zero audits
- > Sustainable energy generation including:
 - Battery storage
 - Solar PV
 - Wind generation
 - Building Energy Management Systems (BEMS) efficiency
 - EV charging installations
 - Ground and air source heat pumps

Energy & Carbon Legislation & Compliance

- > Keep clients compliant with legislation
- > Recent legislative changes include a ban on the sale of:
 - Tungsten Halogen Lamps
 - Linear Halogen R7 Lamps
 - Fluorescent Tubes
- > Minimum Energy Efficiency Standards – MEES

Carbon Offsetting

- > Help develop strategies for offsetting residual emissions
- > Strategies to closely manage nature stewardship and the circular economy

Energy Projects

- > Energy feasibility studies
- > LED lighting & controls
- > BMS strategy rewrites with energy analytics
- > BMS upgrades
- > Chiller upgrades
- > CHP installations (using biogas)

If you need support in any of these areas, Platinum Facilities' energy experts are here to help. Please call us today on **020 3763 8668** or email info@pfms.co.uk
